Project partners

This project received a grant from the German-Polish Youth Office [GPYO, www.dpjw.org], an organisation created by the governments of both countries. The GPYO's objective is to support mutual recognition, understanding and cooperation among young people from Germany and Poland, as well as their peers from third countries. To this end, the GPYO finances, initiates and facilitates youth meetings.

Participation in this international project supports the personal development as well as intercultural and language skills of young people. It also fosters mutual understanding, combats prejudices and builds joint responsibility for shaping the future of a free Europe.
